

BURTONS LAPAROSCOPIC POSITIONER

END-LAPP5

PRODUCT DESCRIPTION

The new endoscopic positioner allows you complete control of your procedure with better visualization than ever before

Rotate your patient securely, left or right, without delays in surgical time and without disruption of the sterile field using the 3 angles that it offers. The rotation causes major abdominal organs to fall away from the body wall, allowing a better view. You are guaranteed to get the best position whilst keeping the patient safe and secure with multiple restraints and tie down points.

The anti-slip positioner fits securely to your table (fits variable table lengths) and with its robust, stainless steel frame, you are guaranteed an extremely high quality, long lasting addition to your practice.

Remove to clean.

Key Features:

- Facilitates quick rotation of patient without disrupting the sterile surgical field
- Provides easy visualization of the dorsal abdominal organs
- Versatile design attaches to existing surgery tables and accommodates any size patient
- Multiple tie-down and restraint points.
- Allows 3 different angles.
- High-quality stainless steel frame
- Easy to remove and clean.
- Adapts to various table lengths.
- Extra secure (no movement).
- Dual medical grade, high-quality rams.
- Includes patient tie down straps, various hooks, and spaces to adjust straps and ties, secure adjustments to fix positioner to the table (no need to purchase fixation clips).

Only for use with a Burtons Table
