

## TEMPOMATIC INFRA-RED TAP

115-267

### PRODUCT DESCRIPTION

## No contact with the tap means no risk of transmission!

With built in infrared spout sensor and automatic duty flush (for ~45 seconds 24 hours after the last use) this infra red tap is the perfect option for scrub sinks. As there is no contact made with the tap so hygiene is an absolute cinch!

The tap is easy to install due to it not requiring a separate control box or additional costs to provide an electrical power supply, unlike other infra-red taps. Instead this tap is powered by a long life lithium battery; typically lasting 3-5 years.

An automatic shut off and regulated flow at 6l/min (instead of the average 12~24l/min without auto shut off) means that you will save a substantial amount of water compared to conventional taps.

### Features

- For temperature control this system can also be plumbed with a thermostatic mixer valve (stock code 115-268).
- Connection size: 1/2" BSP.(m)
- Supply pressure 0.5~5bar.
- Infra-red presence detection
- Flow restrainer set at 3 lpm at 3 bar
- M1/2" solenoid valve with filter
- Automatic duty flush (for ~45 seconds 24 hours after the last use)

### ADDITIONAL INFORMATION
