

BURTONS PRO-LIFT TWIN COLUMN TABLE

225-205-BUNDLE

PRODUCT DESCRIPTION

Never struggle to achieve the perfect patient position again with the newly designed, fully electric twin column Pro-Lift table

With a high capacity 400kg weight limit this ultra-quiet, electric examination table excels in functionality, stability, and longevity. Get even your heavier patient to the perfect position with ease using the fully electric height and tilt controlled auto-leveling dual rams. Reducing risk of repetitive strain and ensuring maximum comfort. Its simple controls enable you to adjust the table height from 690mm to 1090mm and tabletop tilt to 33°.

With a standardised table top fitting, this table can be configured for your needs allowing for most of the Burtons table top range to be fitted with additional heated and lead-lined options available. Simply select the top you need.

Fully electric base

Enjoy the ease of use around your practice with a built-in battery, allowing you to work wherever you need, and don't be afraid of it losing power, the table can be used directly from mains as a backup.

The frame

Made up of dual heavy duty, electric rams, the simple design of this table base allows for quick and easy cleaning. All supported on a heavy duty stainless steel base with four anti-static medical grade, lockable castors, ensuring smooth and easy manoeuvrability around the practice.

Choose your top:

Standard Top

Standard flat top constructed of high quality stainless steel. Welded and polished corners allow the top to be thoroughly wiped clean with no hidden dirt traps. Complete with tie down points to secure the patient. Top Size: 122 x 60 cm

Extended Top

Extended version of our flat top allowing additional patient / working space on the table. The perimeter of the top has tie down points to secure the patient. Top Size: 137 X 60 cm

V Top

For procedures requiring precise animal positioning, choose a 'V' style table. Featuring two die formed stainless steel table leaves, which can be positioned independently to help you create the required angle for specific procedures. Top Size: 147 x 40 cm

Dental Top

Perfectly designed for any dental procedure, the high quality, stainless steel top is intelligently shaped to ensure any excess water runs into the built in grill. Designed at a standard top size allowing for the dental top to be fitted to a range of Burtons table bases and also providing ample procedure space. Top Size: 137 x 60 cm

Heated Top - Max temp: 35°

The heated top option available on a range of table top assists in maintaining body temperature during use. The temperature is controlled via an easy to use mounted panel, simply select the maximum temperature you want the table top to reach and the sensor within the table will then regulate the temperature once reached - 137cm x 60cm

Lead Lining

Available on a range of tops, lead lined tops are A high quality stainless steel top with built in lead lining, an Ideal combination for X-ray procedures and Operations/ Examinations where space is at a premium in the practice.

Don't forget to protect your top with a Burtons table mat..

We use a 2.5mm thick black matting made from a manmade material that is non-marking and has excellent chemical and abrasive resistance. Mats are provided with stainless steel securing clips for the two short ends, these help hold the mat in place on tables without a recess for the mat to lay in.

Manufactured to last

We don't just supply it! It was designed and built by Burtons in the UK at our principle manufacturing facility in Maidstone, Kent Using the latest CNC's and laser manufacturing processes and high quality stainless steel materials this product has been engineered from the ground up to last!
