

SMART DOG PARKING FACILITY

119-065

PRODUCT DESCRIPTION

A lead restraining hook and mounting plate, which may be securely attached to any suitable surface. A simple way to tether a dog

Ideal for veterinary practice, kennels or groomers the Smart Dog Parking Facility can be easily fitted in receptions, waiting rooms, wards, prep rooms, exercise runs and consulting rooms. With no spring-loaded fastenings to contend with, the hand loop of a lead is passed over the hook and restrained by the 'cow horn' cross piece. Dogs don't have to be taken off the lead to attach so the park can be used single-handed. In the reception or waiting room, the Dog Park allows owners to tether dogs safely while dealing with payments or enquiries - it can be difficult to do this and control an excited dog at the same time! All metal parts are stainless steel.

The mounting plate is made from ABS plastic making the unit durable and damage resistant. Each unit is supplied complete with screws, wall plugs and fitting instructions. The Dog Parking Facility should not be used unattended in public areas. Apart from the risk of theft, there is the possibility that someone might frighten or untie the dog resulting in an accident.

Features

- Secure means to tether a dog
- Simple to fit and use
- Maintenance free
