

BURTONS O₂ ANAESTHESIA MACHINE

102-012-BUNDLE

PRODUCT DESCRIPTION

Great value single gas mobile anaesthetic machine

Including a 0-15 l/min O₂ flowmeter and O₂ flush safety valve as standard, and complete with a 5 star mobile base. This anaesthetic machine offers exceptional value for money whilst still being built to last. Built to carry 1 x 'F' size cylinder it still remains compact and easy to move around the practice, whilst being easily stored when not in use.

Key Features:

- Compact Design
- Stable 5 Star Base
- Holds one F size bullnose cylinder
- 0-15 l/min O₂ Flowmeter
- Bullnose O₂ Regulator
- Emergency O₂ Flush
- Corner unit outlet (BS22mm Male)
- Overall size: 61 x 61 x 114cm WDH

Don't forget your Vaporiser

The Series 3 is a temperature compensating, out of circuit vaporiser in a traditional design, familiar to most veterinary practitioners. Calibrated specifically for the specified anaesthetic drug using a laser refractometer.

Fitting Type

Choose from the standard taper mounted fitting (cage mount) (UNI) or the quick release (QR) option; allowing you to easily swap the vaporiser to different anaesthetic machines throughout the practice. Additional quick release compatibility blocks will be required for

each anaesthesia machine. (Available separately)

Key filled or Funnel (Pour fill)

Key filled (KF) systems require the addition of key filler adaptors but are generally safer and have a lot less wastage compared to standard funnel filled (FF) vaporisers, saving you money in the long run.

Manufactured to last

We don't just supply it! It was designed and built by Burtons in the UK at our principal manufacturing facility in Maidstone, Kent Using the latest CNC's and laser manufacturing processes and high quality stainless steel materials this product has been engineered from the ground up to last!

Vaporiser Sold Separately

ADDITIONAL INFORMATION
