

BURTONS PM-60 VET HANDHELD PULSE OXIMETER - CLEARANCE

PM-60-CL

PRODUCT DESCRIPTION

High quality, lightweight device capable of the following functionalities

Spot-check mode

For simple vital signs checks, spot-check mode offers basic functions including auto-assign of patient IDs, alarm suppression state and auto-standby and power-off features.

Continuous mode

For long-term monitoring, continuous mode offers manual entry of unique patient IDs, alarm management and pleth waveform display.

Key Features

- Performs SpO2 and pulse rate measurements in either spot-check or continuous mode
- Compact design offers an impressive lightweight device, making it easy to use with prep and ops
- 2.4" colour LCD prominently displays SpO2 and pulse rate readings
- Variable screen brightness allows you to alter the intensity of the LCD and conserve battery power
- Adjustable visual and audible alarms: you can choose whether to show SpO2 and pulse rate alarm limits on the LCD
- Choose from either lithium ion or AA alkaline batteries depending on your run-time needs
- Automatic standby mode and selectable auto-shutdown mode assist in conserving battery power

SpO2

- Measurement range: 0~100% $\pm 2\%$ (70~100%)
- Resolution: 1% Alarm range: 50~100%
- Refreshing rate: 1 s
- Averaging time:- 7 s (sensitivity set HIGH) - 9 s (sensitivity set MED) - 11 s (sensitivity set LOW)
- Pulse rate Range: 18~300 bpm (± 3 bpm non-motion)(± 5 bpm motion) Alarm range: 18~300 bpm
- Resolution: 1 bpm
- Refreshing rate: 1 s
- Averaging time: same as SpO2

Technical Specifications

- Display: 2.4 colour TFT
- Resolution: 320 x 240
- Multi displays selectable: standard or waveform screen
- Trace: 1 plethysmogram waveform
- Indicator: alarm indicator light, power indicator light, pulse tone, alarm sound, button tones
- Interface: dual-purpose socket for connecting SpO2 sensor and communication cable IR interface: infrared link allows downloading real-time patient data to computer
- DC power interface: Charger stand for Li-ion battery
- DC power requirements: input voltage 5V DC Power 1.2A

Battery

- Li-ion battery 24 hours continuous working
- 3xAA batteries 36 hours continuous working

Trend memory

- Monitoring mode: Resolution: 2s - Maximum time: 96 hr
- Spot-check mode: Review of up to 4000 data, measure up to 99 patients
- Alarm: user adjustable high and low limits 3-level audible and visual alarm

Clearance products may be non-pristine, for example:

- On occasion some items may show signs of minimal use, which may include minor cosmetic marks which do not affect the functionality in any way.
- Although most of our clearance products are sold in their original manufacturers packaging, there may be occasions, due to packaging damage, where plain white or brown packaging may be used

Clearance units sold with 6 month standard guarantee, unless otherwise specified. This does not affect your statutory rights.

Please see our terms and conditions for more information.
