

EMS PIEZON 150 DENTAL SCALER - CLEARANCE

118-150-CL

PRODUCT DESCRIPTION

The new refined and versatile Piezon® series features intuitive EMS “Piezon® Method” technology which is brought together in a small and easy to use package

Thanks to its high-end Swiss build, the Piezon 150 offers not only a great look but also a great record of reliability. With features such as self-tuning, a removable autoclavable handpiece, piezo crystal technology (ensuring the handpiece doesn't get uncomfortably hot) and finger-tip power control, this new machine truly takes the lead over other competitor products.

The Piezon 150 is supplied with three scaling tips:

- **Tip A** is designed for general supragingival deposit removal on all tooth surfaces
- **Tip P** is designed for general supragingival deposit removal on all tooth surfaces, including the interproximal and sulcus areas.
- **Tip PS** is designed for general subgingival deposit removal on all root surfaces and can also be used for supragingival maintenance therapy.

Finger-Tip Power Control

Simple and precise power setting with a large ergonomic and effortless fingertip power regulator, the Piezon® 150 is designed for intuitive use. It includes 35 LED-indicated power increments and a Soft-Perio power zone indicator.

The applications are endless; from Prophylaxis to Periodontal treatments.

Did You Know?

The scaler can also be fitted with uniquely developed urinary tips which are inserted into the urethra to pulverize wedged calculus eliminating the potential need to carry out a urethrotomy. A separate tip is available for cats and for dogs.
