

## BURTONS 5% TEC 3 ISOFLURANE VAPORISER

600-001

### PRODUCT DESCRIPTION

## Burtons manufactured Vaportec Tec3 Isoflurane Vaporiser

A temperature-compensating, out-of-circuit key filled vaporiser in a much lighter design, familiar to most veterinary practitioners. Calibrated specifically for the specified anaesthetic drug using a laser refractometer.

Designed to be used in continuous flow "out of circuit" systems and give a per-set volume to volume concentration of vapour; to be self-compensating over the average working temperature range, and non-critical of input gas flow rates.

#### Fitting Type

Choose from the standard taper mounted fitting (cage mount) or the quick release option; allowing you to easily swap the vaporiser to different anaesthetic machines throughout the practice. Additional quick-release compatibility blocks will be required for each anaesthesia machine. (Available separately).

**Weight:** 3.5kg (typical model)

**Capacity (total):** 125ml

**Consumption:** 1ml of liquid gives approx., 200ml of vapour

**Vapour flow pressure:** At 5L/Min oxygen, 3cm w.g. "OFF" position.

**Flow rate:** Nominal 200ml - 15L/MIN

**Compensation temperature range:** 15° - 36°C

**Connectors:** Cagemount 23mm, BS22mm Uni-Fit or quick-release versions.

**Filler:** Keyed filler.
