

700 GIVING SETS + FREE BURTONS EN-V5 INFUSION PUMP

EN-V5-PROMO-700

PRODUCT DESCRIPTION

One of the only infusion pumps on the market that allows storage of multiple giving set calibrations

Bundle Includes:

- Free Burton's EN-V5 Infusion Pump
- 700 Giving Sets

The Burton's EN-V5 sets the new standard for modern, user intuitive infusion pumps. It is one of the only pumps on the market to allow you to store multiple giving set calibrations, meaning you no longer need to buy separate pumps for paediatric, standard infusion and bloods. Store up to 200 calibrations of giving sets.

The EN-V5's large touchscreen really adds to how user intuitive it is, easily change settings and modes as well as clearly view what the pump is currently doing, including a 'Time remaining' box that allows you to judge when the pump needs checking next.

Its battery will last up to 10 hours when fully charged, allowing you to move it easily between theatre and recovery, a quick and easy Allen key fitting allows you to change over from the infusion pole bracket to the cage mount, both of which are included with the pump.

Your Burton's EN-V5 will come already calibrated to Burton's Giving Sets, please let us know when you place your order if you would like it calibrated to a different type.

The exclusive Burton's edition kit comes with a pole mount, cage mount bracket and 'L' shaped power lead as standard - The perfect set up for practices!

Key Features:

- Stores up to 200 giving set calibrations
- Interchangeable IV pole bracket, cage bracket and 'L' shaped power cord included as standard
- Night mode - dims brightness of the screen so it can still be seen clearly but doesn't shine bright lights into a dark room, causes less stress for recovering patients.
- Suitable for bloods
- Right angle power lead - keeps leads away from prying paws in cages.
- Parameter settings and editing directly on the touchscreen
- 5 infusion modes + micro mode control
- Infusion rates range from 0.1ml/h to 2000ml/h
- IP44 splashproof
- Automatic anti-bolus
- Screen lock to avoid misoperation
- Purge mode for removing air bubbles
