EXAMION DR PORTABLE CASE SYSTEM WITH LARGE PANEL

XR-EXSY000008-PROMO24

PRODUCT DESCRIPTION

A completely wireless, two-component DR solution for horses and mixed animal use.

Supplied in one, compact, easy-to-transport case, the Examion Portable L (14" x 17") Case is perfect for those out in the field visits where you need to capture images quickly, yet accurately. It is also perfect for use in combination with an existing practice X-ray system. Simply remove it from the bucky tray and place it in the secure robust case, with the laptop, when an examination outside of your practice is required.

With the AED, DR panel, the system can be ready to use within seconds, and can be used with any generator available, the AED allow you to simply position the generator in line with the AED sensor ready for capture. Full images are viewable within 5 seconds, allowing you to ensure you have the images you require before leaving the patient's side. This dramatically reduces the number of re-takes needed, and therefore minimises the stress for the patient and allows for quicker analysis of the images.

The Large size of the panel is ideal for examining large and small animals as it can be used in combination with existing X-ray systems within your practice or for equine examinations outside of your practice.

This package includes as standard:

- Robust, protective, transportation case
- Large 14" x 17" Wi-Fi DR Panel
- 2 x rechargeable panel batteries
- Compact battery charging station
- Lead back scatter: 0.15mm 24*30
- Cowboy box for Large Panel - with replaceable handle, telescopic distance holder and telescopic foot
- Lenovo notebook-style laptop
- AQS software included as standard with the following modules: PACS Vet for image storage, 1 x AQS license, X-ray module, Image optimisation module, METAGRID Module - giving you a virtual module, saving you having to purchase extra physical grids, Multi-organ module - allowing each user to have their own organ capture order pre-sets, depending on how they like to work.

This package also currently includes the following promotional extras:

- AQS Horse Module - horse default settings pre-loaded on turning the system on
- AQS DropBox Cloud for easily storing and sharing patient images.
- AQS Synchronisation module - enabling the panel and laptop to connect directly with one another and automatically sync.
- 5-year panel warranty
- 1st-year software support contract
- 2 x extra AQS licenses = 3 licenses in total for use across multiple practices or locations.

Key Features:

- Compact and lightweight, for faster and easier handling around horses
- A small, robust storage case keeps the complete setup safe, whilst easily portable
- Use in combination with an existing practice X-ray system, removing from the bucky and placing in the rugged case when use outside of the practice is required.
- High-resolution images due to its small pixel size of just 76 microns.
- The detector and laptop communicate directly meaning this is all you require for a complete examination.
- System is ready to use within seconds of being turned on.
- AED (Automatic Exposure Detection) Panel allows the panel to be used instantly with any generator available.
- AQS software as standard – enables easy x-ray image diagnostics via the onboard radiology viewer, with diagnostic tools and measurement functions.
- Integrated image archiving with direct access to all archived X-ray images and patient data
- Share X-rays with clients and colleagues via the integrated AQS Dropbox
- Laptop can be used with the mouse pad or via touchscreen.

Specifications

- Detector Technology: Indirect conversion, a-Si TFT
- Scintillator: CSI
- Dimensions: W x H x D: 460 mm x 384 mm x 15.2 mm (18.1" x 15.1" x 0.6")
- Active Area: 35 cm x 42 cm (14" x 17")
- Pixel Matrix: 2304 x 2800 pixel
- Resolution (lp/mm): 3.6
- AD Conversion 14 Bit
- Pixel pitch: 150 μm
- Data Transmission: GigE
- Trigger Mode: AED (Automatic Exposure Detection) / external trigger
- Preview Image Time (S) <2
- Full Image Time (S) 5
- Housing Material: Magnesium aluminium alloy
- Weight Limits: Local Load: 100kg at Ø 40 mm / Uniform load: 100kg at effective image area overall
- Battery type: Lithium Ion polymer
- Charging time: 2 hours
- Working time with one battery: 2 hours @ 200 images

ADDITIONAL INFORMATION

Animal	Mixed
SKU	XR-EXSY000008-PROMO24
Catagory Sub Heading	14" x 17" Wi-Fi Panel - **Mobile** DR System
System Type	Mobile
Upgrade Panel	No

Wifi	Wifi
A.E.D. Compatible	Yes
Image Transfer Time	<5s
Computer Type	Laptop
