EXAMION FIRECR DENTAL SYSTEM - WITH FIRECR READER, GENERATOR & EXTRA MODULES

XR-EX-FIRECRDENTALBUNDLE1

PRODUCT DESCRIPTION

This fully featured CR dental system delivers high-quality dental images quickly and affordably for the veterinary clinic.

This complete dental solution has been designed to be added to your existing Examion AQS system, therefore your practice must already be running Examion AQS for this setup to work. The package includes:

- FireCR reader
- Imaging plate kits of sizes 2 & 4c
- Cleaning fluid
- AQS software modules: X-ray, Controls for FireCR, PACS
- Static Dental Wall Mounted Generator with standard arm (184cm)

The FireCR's compact size makes it suitable in even the smallest examination rooms, without compromising quality. It rapidly reads reusable, easy-to-position intraoral imaging plates, generating high-quality X-ray image results.

Working alongside the included dental x-ray generator, the included AQS software modules enable easy image acquisition, analysis and storage, creating a complete dental imaging system built-in to your existing AQS software.

Imaging plates are processed by being placed directly onto the feeder, which magnetically holds them in place. This contact-free reading ensures a longer plate life and no additional cassette adapters are needed to read the imaging plate.

Key Features:

• Simple, two-step process – after exposure, the Fire CR provides fast, reliable images.
• Dental image plates are available in different dental sizes for different animal species.
• It's rapid, high-quality reading of re-usable, easy-to-position bitewing, intraoral positioning plates instantly enhances your dental x-raying.
• Exceptionally compact at just 12cm wide and 26cm high, suitable for the smallest of spaces
