

BURTONS SUPERBLUE GIVING SETS - STANDARD NEEDLE FREE VALVE

129-012*BUNDLE

PRODUCT DESCRIPTION

Burtons SuperBlue Giving Sets - Standard Needle Free Valve

Our high-quality Burton's SuperBlue Giving Set as part of our Infusion Perfection range – A standard needle free valve design exclusive to Burton's, the needle free valves are compatible with both standard syringes and syringes with a luer lock for a secure fit. This SuperBlue giving set has been rigorously tested by our experts to ensure it meets the highest standards of quality and performance. Its innovative design includes a blue placement indicator colour coding. The ease of use makes these giving sets the standout choice for veterinary professionals. They are ideal for short term infusions (1-2 days) and can be used with all infusion pumps as well as via a gravity feed. Each giving set is single use only.

Key Features:

- **Blue Placement Indicator:** A unique, blue-tinted section on the line ensures easy identification of the correct placement for infusion pumps, streamlining setup and reducing errors. Blue pump section is 900mm.
- **Compatibility:** Specifically designed to work seamlessly with the Burton's range of infusion pumps, including the EN-V5, EN-V5+, IVY, Niki IV, as well as other infusion pumps. The set can also work when gravity-fed.
- **Ultrasonic Sensor-Friendly:** Custom-built to avoid interference with ultrasonic sensors on pumps, ensuring smooth operation and preventing occlusions.
- **Instant Flow Control:** Equipped with a 'C' Clip flow shut-off clamp for immediate, temporary flow cessation when needed.
- **Precision 'V' Roller Clamp:** Allows for accurate flow rate adjustment.
- **Anti-Kink Resistant Tubing:** Ensures consistent fluid delivery and seeks to further prevent occlusions, even with active patients.
- **Durable High-Quality Materials:** Made from DEHP-free PVC tubing, latex-free components, and high-quality materials such

as PE, PTFE, ABS, and nylon for reliable performance.

- **Rotating Luer Lock:** Enhances versatility and ease of use during procedures. The rotating luer lock also allows for easier connection to IV cannulas.
- **Needle-Free Valves:** Includes two clear blue needle-free valves for added safety and convenience.

Why Choose Burtons SuperBlue Giving Sets?

Exclusive to Burtons, this giving set has been rigorously tested by our experts to ensure it meets the highest standards of quality and performance. Its innovative design, including the blue placement indicator and anti-kink tubing, makes it a standout choice for veterinary professionals. All Burtons sets are designed in such a way to ensure consistent calibration across the range, allowing a single calibration value – There is no need to remember to change your settings between using Burtons sets!
