EXAMION X-DRS VET SMART COMPLETE SMALL ANIMAL RADIOGRAPHY SYSTEM

XR-EXY000010-PROMO25

PRODUCT DESCRIPTION

Introducing the X-DRS VET Smart: a complete DR X-ray system for small animal practices.

Engineered with advanced technology, this robust and adaptable system delivers exceptional image performance tailored to meet the unique demands of veterinary radiography.

Improve practice diagnostic accuracy and ensure patient safety with an adaptable system that allows for imaging across various animal sizes and conditions. With lower voltage and shorter exposure times that are ideal for smaller or delicate animals, and higher settings that provide detailed imaging for larger animals or more complex conditions.

With 352 pre-set programs you can be confident in selecting the optimal settings required for specific diagnostic scenarios at the click of a button, reducing human error and improving workflow efficiency in high-volume practices. You can select these options using the easy-to-use, touchscreen monitor.

The Examion XL wired CsI detector panel is included as standard, providing high-resolution imaging with reduced radiation exposure. Due to its XL size, the panel is suitable for a wide range of small animals, from very small pets to larger dog breeds.

A floating table design allows for easy and precise patient positioning, simply adjust the table to re-position your patient for the ideal angle.
